

# MASCHINENLISTE

Unser Maschinenpark im Überblick.

11

MASCHINEN

120-2000 kN

SCHLIESSKRAFT

24-350 g

SPRITZGEWICHT (PS)

bis 900 mm

EINBAUHÖHE

| Ma. | Hersteller | Typen-<br>bezeichnung | Schliesskraft<br>(kN) | Schnecken-<br>durchm.<br>(mm) | Max.<br>Spritzgewicht<br>(PS) in gr. | Lichter<br>Holmabstand<br>(mm) | Einbauhöhe<br>(mm) | Handling /<br>Picker | Kernzug |
|-----|------------|-----------------------|-----------------------|-------------------------------|--------------------------------------|--------------------------------|--------------------|----------------------|---------|
| 1   | Arburg     | 120-100-45 U          | 120                   | 22                            | 24                                   | 120 x 120                      | 150-350            | Picker               | 1       |
